Tokyo Aqua Symphony is now open at Odaiba Seaside Park!

This new landmark fountain has been installed to further enhance the area's attractiveness, to support its continued development, and to create additional vibrancy. It is part of Tokyo Metropolitan Government's initiative for balanced urban development in the Tokyo Waterfront City area, integrating workplaces, residences, educational institutions, and leisure facilities.

Tokyo Aqua Symphony is one of the largest fountain complexes in the world, combining one reaching 150 metres in height with one 250 metres wide. The design is inspired by Somei Yoshino, the cherry blossom that serves as the official flower of Tokyo.

Visitors can enjoy a dynamic fountain show set against iconic views of the Rainbow Bridge and Tokyo Tower from a unique waterfront setting in the heart of the city.
